AMENDMENT AFTER FINAL REJECTION

In response to the Office Action dated December 30, 2003 in the above-referenced patent application, the Applicants submit the following argument.

ARGUMENT

This application has already seen three office actions addressing the merits of the claims.

In the first Office Action dated December 12, 2001, claims 10, 11, 13-15, 17, 19, 20 and 23 were rejected under 35 U.S.C. § 103(a) as being obvious over U.S. Patent No. 5,013,403 to Chase in view of U.S. Patent No. 5,036,696 to Ahrens et al.; claims 12, 16, 18, 21 and 24 were rejected as being obvious over Chase in view of Ahrens and further in view of U.S. Patent No. 3,490,689 to Hart et al.; and claim 22 was rejected as being obvious over Chase in view of Ahrens, and further in view of the article by Page et al.

On March 18, 2002, the Applicants filed an Amendment in response to the December 22, 2001 action. In addition to a claim amendment, the Applicants presented arguments traversing the prior art grounds for rejection.

New grounds for rejection were presented in the Office Action dated June 12, 2002. Claims 10, 11, 13-15, 17, 19, 20 and 23 were now rejected under 35 U.S.C. § 103(a) as being obvious over Chase in view of any of three articles by Seth; claims 12, 16, 18, 21 and 24 were rejected as being obvious over Chase in view of Seth, and further in view of Hart; and claim 22 was rejected as being obvious over Chase in view of Seth, and further in view of the article by Page et al. In addition, the Examiner refuted Applicants' arguments made in the Amendment filed on March 18, 2002.

In response to the June 12, 2002 Office Action, the Applicants submitted an Amendment on October 22, 2002. In that response, arguments traversing the new grounds for rejection were presented. In particular, the Applicants set forth the three basic criteria for establishing a *prima facie* case of obviousness as set forth at MPEP 706.02(j), to wit, (1) some suggestion or motivation in the prior art to modify the reference or to combine reference teachings; (2) a reasonable expectation of success; and (3) the combined prior art references must teach or suggest all of the claim limitations. The Applicants applied these criteria to show that the

Examiner had failed to establish a *prima facie* case of obviousness.

In the latest Office Action, the Examiner has repeated verbatim all grounds for rejection asserted in the June 12, 2002 Office Action, including the rejection of claims 16 and 24, which are merely objected to in the Office Action Summary. Thus, the text of the office action is inconsistent with the Office Action Summary.

Moreover, the latest Office Action incorporates *verbatim*, not only the same grounds for rejection, but also all of the rebuttals to Applicants' arguments presented in the March 18, 2002 Amendment. For example, the Examiner on page 3 of the latest action states that Applicants' argument that Ahrens and Chase are not combinable was moot. But Applicant presented this argument in the March 18, 2002 Amendment, not in the October 22, 2002 Amendment. The Examiner has not discussed or addressed a single argument made by the Applicants in the October 22, 2002 Amendment.

Section 707.07(f) of the MPEP states:

Where the Applicant traverses any rejection, the examiner should, if he or she repeats the rejection, take note of the applicant's argument and answer the substance of it.

The examiner has not followed this rule. Instead the examiner has repeated each rejection without answering any of Applicants' arguments why the rejections are mistaken. Thus,

the latest Office Action is improper and contrary to the rules of patent examining procedure.

The Applicants respectfully request that the Final Rejection be withdrawn and that a new action addressing the substance of Applicants' October 22, 2002 arguments be issued.
